Student Professional Skills Summary Form

In conjunction with submitting the Group Therapy Evaluation Form (from any semester in which you provided group therapy and had your supervisor of group therapy complete the form) and ALL Practicum Evaluation Forms from the past semester, you must provide the following information to help faculty evaluate your Professional Competencies as part of your Professional Competencies Portfolio. You should type your answers in a separate word document. Your answers must be limited to one page of single-spaced text using size 12 Times New Roman font.

1. Describe what you have done over your time in the program, up to the current date, that reflects your competence to behave in ways that reflect the values and attitudes of psychology, including integrity, deportment, professional identity, accountability, lifelong learning, and concern for the welfare of others. You may wish to provide several examples of each to help faculty determine whether you have achieved competence in this area.

2. Engage in self-reflection regarding your personal and professional functioning. Describe how you consistently do this and self-reflect for faculty here. Also describe how you engage in activities to maintain and improve your performance, well-being, and professional effectiveness.

3. Describe how you developed and maintained effective relationships with a wide range of individuals, including colleagues, communities, organizations, supervisors, and those receiving professional services you provide while in the program. Give specific examples.

4. Describe how you have evidenced effective interpersonal skills and your ability to manage difficult communications during your time in the program. Give specific examples.
